

Heavy Duty Hand Riveter

This hand riveter is designed for heavy-duty riveting applications. It features long handles for increased leverage and comfortable grips for reduced user fatigue.

Product Overview

Professional Heavy-Duty Riveting Solution

This high-strength double-hand riveter is engineered for demanding industrial and professional applications. Designed for durability and ease of use, it features long handles to provide increased leverage, significantly reducing user fatigue during repetitive tasks. The tool's robust construction and versatile nozzle system make it an essential asset for securely fastening materials such as steel, aluminum, fiber, and leather.

Technical Specifications

Compatible Rivet Sizes

- 3.2mm
- 4.0mm
- 4.8mm
- 6.0mm
- 6.4mm

Body Material

Steel, Aluminum Alloy

Design & Ergonomics

Operational Features

High Leverage • Spring-loaded handle • Automatic mandrel ejection

Handle Grip

Plastic non-slip design

Applications

Suitable Materials

Fiber, Metal, Leather, Steel, Aluminum
