

Heavy-Duty Hydraulic Claw Jack

This heavy-duty claw jack is designed for lifting heavy loads in industrial and construction environments. It features an integrated hydraulic system for smooth, controlled lifting and incorporates a robust claw for accessing low clearance points.

Overview

Heavy-Duty Hydraulic Claw Jack

This heavy-duty hydraulic claw jack is engineered for demanding industrial and construction lifting applications. Featuring an integrated hydraulic system, it provides smooth and controlled lifting power for heavy loads. The design includes a robust claw for accessing low-clearance points, alongside wheels for maneuverability and a foot pedal for convenient, hands-free operation.

Technical Specifications

Lifting Capacity Range

50 t

Minimum Capacity

100 t

Maximum Capacity

Construction Material

High-strength steel

Features

Key Features

- Integrated hydraulic system
- Low-clearance claw design
- Integrated wheels for maneuverability
- Hands-free foot pedal operation
- Heavy-duty steel construction

Application Suitability

Industrial, Construction, Heavy Lifting
