

Heavy-Duty Hydraulic Excavator

This heavy-duty hydraulic excavator is designed for demanding construction and excavation tasks. It features a robust chassis, powerful hydraulic system, and ergonomic operator cabin for enhanced productivity and comfort.

Overview

Built for Demanding Environments

This heavy-duty hydraulic excavator is engineered for high-performance construction and excavation tasks. It features a robust chassis paired with a powerful hydraulic system to ensure maximum productivity and reliability on the job site. Designed with an ergonomic operator cabin, it balances raw power with operator comfort, making it an ideal choice for digging, trenching, and loading in construction, mining, and infrastructure projects.

Performance

Key Features

- Robust chassis design
- High-capacity bucket
- Durable track system
- Ergonomic operator cabin

Terrain Compatibility

Multi-terrain • High Traction

Primary Applications

Construction, Mining, Infrastructure, Trenching, Loading
