Product Overview

Heavy-Duty Hydraulic Performance

This heavy-duty hydraulic floor jack is engineered for reliable lifting performance in demanding automotive environments. Designed with a robust steel construction, it provides stable and secure lifting power for vehicles and other heavy loads. The inclusion of smooth-rolling swivel casters and an ergonomic long handle ensures precise maneuverability and convenient operation during maintenance and repair tasks.

Technical Specifications

Lifting Mechanism	Hydraulic
Material	Steel

Features

Mobility	Swivel Casters, Smooth-rolling Wheels
Operation	Manual pumping action

Application

Primary Uses

- Automotive maintenance
- Repair tasks
- Lifting heavy objects
