

Heavy-Duty Impact Drill for Concrete and Metal

This impact drill is designed for heavy-duty applications. It features a high-torque motor, variable speed control, and a durable chuck for secure bit retention.

Product Overview

Heavy-Duty Impact Drill

This robust impact drill is engineered for demanding tasks in construction and metalworking environments. Featuring a powerful 1100W motor, it delivers consistent high-torque performance for drilling into concrete, masonry, and metal. With variable speed control and a secure 16mm chuck, this tool provides the precision and reliability needed for professional-grade applications.

Technical Specifications

Rated Input Power

1100 W

Power Output

No Load Speed

0-2800 r/min

Chuck Size

16 mm

Applications

Compatible Materials

Concrete, Masonry, Wood, Metal
