

Heavy-Duty Impact Drill for Wood Concrete and Metal

This professional-grade impact drill is designed for heavy-duty applications. It features a robust motor, variable speed control, and a durable chuck for secure bit retention, making it ideal for drilling into wood, metal, and concrete.

Product Overview

Professional-Grade Heavy-Duty Impact Drill

This professional-grade impact drill is engineered for demanding applications across wood, metal, and concrete surfaces. Featuring a robust motor and variable speed control, it offers the performance and reliability required for intensive job site tasks. Its ergonomic design, combined with an included side handle, ensures superior control, precision, and reduced user fatigue during extended operation.

Technical Specifications

Chuck Capacity	13 MM
Compatible Materials	Wood, Metal, Concrete

Key Features

Performance Features

- Variable speed control
- Robust motor for heavy-duty use
- Secure bit retention chuck
- Ergonomic design
- Side handle for enhanced precision
