

Heavy-Duty Liquid Transport Tanker Truck

This heavy-duty tanker truck is designed for transporting liquids. It features a large cylindrical tank, a powerful orange-colored cab, and a multi-axle chassis for stability and weight distribution.

Overview

Heavy-Duty Liquid Transport Solution

This heavy-duty liquid transport tanker truck is engineered for reliability and durability in demanding logistics operations. Featuring a robust multi-axle chassis design, it ensures optimal weight distribution and stability during transit. The vehicle is equipped with a high-capacity cylindrical tank, integrated side safety rails, and reinforced rear bumper protection to maximize operational safety.

Technical Specifications

Safety Equipment

- Multi-axle chassis for stability
- Side safety rails
- Rear bumper protection

Capacity/Identifier Code

216

Tank Configuration

Cylindrical Tank, Multi-Axle Chassis, Horizontal Striping
