

Heavy Duty Metal Coil Decoiler

This heavy-duty decoiler is designed for uncoiling metal coils in industrial applications. It features a robust construction, adjustable mandrel, and motorized drive system for controlled uncoiling.

Overview

Industrial Heavy Duty Decoiler

This heavy-duty metal coil decoiler is engineered for high-performance industrial uncoiling applications. With a robust design capable of supporting capacities between 3 and 25 tons, it ensures reliable operation for a wide range of metal coil widths from 500mm to 2000mm. The system includes advanced features like hydraulic mandrel expansion and AC variable speed control to optimize production efficiency.

Technical Specifications

Load Capacity Range

3 T

Minimum Capacity

25 T

Maximum Capacity

Coil Width Range

500 mm

Min Width

2000 mm

Max Width

Standard Features

Standard Equipment

- Hydraulic expansion of the mandrel
- AC variable speed control
- Hydraulic drive system
- Quick release narrow coil keepers
- Integrated loop control

Optional Configurations

Optional Features

Coil car, Coil hold down arm, Hold down arm with motorized endwheels
