

Heavy-Duty Metal Storage Box

This heavy-duty metal box is suitable for storage or protection of equipment and components. Its robust construction features a yellow finish and a stackable, square design, with possible lifting points on top.

Product Overview

Industrial-Grade Storage Solution

This heavy-duty metal storage box is engineered for demanding industrial and machinery environments. Its robust construction ensures superior protection for equipment and components, while the stackable, square design optimizes space in warehouses or workshops. Featuring a durable yellow finish, it is built to withstand rigorous daily use in professional settings.

Design & Construction

Finish Color	Yellow
Construction	Heavy-duty metal
