

Heavy-Duty Motor Grader

The heavy-duty motor grader is designed for road construction, maintenance, and earthmoving. It features a powerful engine, advanced hydraulic system, and robust frame.

Overview

Heavy-Duty Performance

The CMG185 is a robust motor grader engineered for demanding road construction, maintenance, and earthmoving projects. It combines a powerful engine with an advanced hydraulic system and a durable frame to ensure consistent performance in tough conditions. Designed with operator comfort and precision in mind, this machine features hydraulic articulation and a versatile moldboard for accurate grading and leveling tasks.

Technical Specifications

Engine Manufacturer	Cummins
Steering Type	Hydraulic Articulation

Key Features

Equipment Highlights

- Powerful heavy-duty engine
- Advanced hydraulic system
- Robust frame construction
- Precision moldboard
- Comfortable operator cabin

Primary Applications	Road Construction, Road Maintenance, Earthmoving, Grading, Leveling
----------------------	---

Compliance

Certifications
