

Heavy-Duty Pipe Wrench with Adjustable Jaw

This heavy-duty pipe wrench features hardened steel jaws for secure gripping and a durable cast iron housing. An adjustable lower jaw provides versatile compatibility with different pipe diameters, making it suitable for professional plumbing and pipe fitting applications.

Product Overview

Professional Grade Pipe Wrench

This heavy-duty pipe wrench is engineered for demanding plumbing and pipe fitting applications. It features a robust cast iron housing and hardened steel jaws, ensuring maximum durability and reliable gripping power. The adjustable lower jaw design offers versatile compatibility with various pipe diameters, providing the high torque and leverage needed for professional-grade tightening and loosening tasks.

Technical Specifications

Key Features

- Adjustable lower jaw
- High torque capacity
- Heavy-duty construction
- Secure gripping mechanism

Application Suitability

Plumbing • Pipe Fitting • Industrial Maintenance

Wrench Size

12 in

Material Composition

Hardened Steel, Cast Iron
