

Heavy-Duty Platform Trolley

This platform trolley is designed for transporting goods and materials. It features a wooden platform, a red metal frame, and swivel casters for maneuverability.

Product Overview

Heavy-Duty Platform Trolley

This heavy-duty platform trolley is engineered for efficient material handling in demanding environments. Featuring a robust wooden platform supported by a durable, red-painted metal frame, it ensures stability and longevity during daily operations. Equipped with four swivel casters, the unit offers excellent maneuverability, making it an essential tool for warehouses, workshops, and industrial logistics.
