

Heavy-Duty Positioning Ring Clamp

This positioning ring clamp is designed for secure attachment to pipes and rods. It is constructed from durable metal with a corrosion-resistant finish and includes bolted connections for easy installation.

Product Overview

Heavy-Duty Positioning Ring Clamp

This heavy-duty positioning ring clamp is engineered for secure and reliable attachment to pipes or rods in demanding industrial environments. Designed for versatility, it facilitates the connection of locator components, hook head inclined cantilevers, and positioning tubes. The robust two-piece construction, complete with bolted connections and tension-maintaining spring washers, ensures long-term stability and ease of adjustment.

Physical Properties

Material	Durable metal
Finish	Corrosion-resistant

Design Features

Included Hardware	
<ul style="list-style-type: none"> • Bolts • Spring washers 	
Design	Two-piece bolted connection
Anti-Loosening	Yes

Applications

Suitable Applications	Industrial, Mechanical, Positioning, Fixation
