

Heavy-Duty Ribbed Knee Pads

These heavy-duty knee pads provide comfort and protection for extended periods of kneeling. They feature a durable, impact-resistant shell with ribbed contours for enhanced grip and stability, along with an adjustable strap system.

Product Overview

Heavy-Duty Ribbed Knee Pads

These heavy-duty knee pads are designed to provide professional-grade protection and comfort during prolonged kneeling tasks. Constructed from durable, flexible PU material, they feature an impact-resistant shell with ribbed contours to enhance grip and stability. The integrated strap system ensures a secure, adjustable fit, making them an ideal choice for construction, flooring, gardening, and maintenance professionals.
