

Heavy Duty Rubber Wheel with Red Hub

This durable rubber wheel is designed with a heavy-duty red hub for reliable performance. It features a robust tire tread pattern, providing enhanced grip and stability on various surfaces, making it suitable for carts, trolleys, and industrial equipment.

Product Overview

Industrial Grade Performance

This heavy-duty rubber wheel is engineered for high-performance applications in demanding industrial environments. Featuring a robust red hub and a specially designed tire tread, it provides superior stability, reliability, and grip on a variety of flooring surfaces. It is an ideal replacement or component for carts, trolleys, and heavy material handling equipment.

Physical Properties

Construction Material	Durable Rubber, Reinforced Hub
Hub Color	Red

Usage & Application

Recommended Applications

- Industrial carts
- Material handling trolleys
- Heavy-duty equipment
