

Heavy-Duty Rubber Wheel

This heavy-duty rubber wheel features a durable black rubber tire on a yellow metal rim. Designed for rugged applications, it provides reliable performance and stability.

Product Overview

Rugged Heavy-Duty Design

This heavy-duty rubber wheel is engineered for reliability in demanding industrial environments. Featuring a robust black rubber tire mounted on a reinforced yellow metal rim with support spokes, it provides exceptional stability under load. The specialized tread pattern is designed to deliver superior grip and traction across a variety of floor surfaces, ensuring safety and operational efficiency.

Technical Specifications

Maximum Inflation Pressure	30 PSI
Country of Origin	China

Safety & Compliance

Safety Warnings

- Do not over inflate
- Maximum inflation pressure 30 PSI

Design Features

Construction Details	Reinforced spokes, Rubber tire, Yellow metal rim, Central axle mount
