

Heavy-Duty Semi-Trailer for Transporting Bulky Goods

This semi-trailer is designed for heavy-duty transportation needs. It features a robust chassis and a multi-axle configuration for optimal load distribution and stability.

Product Overview

Heavy-Duty Transport Solution

The WS9470 semi-trailer is a high-performance solution engineered for the transport of heavy and bulky goods. Featuring a robust steel frame and a multi-axle configuration, it ensures superior load distribution and stability during transit. The design prioritizes operational efficiency, offering a durable suspension and braking system suitable for demanding logistics environments.
