Product Overview

Professional Demolition Performance

This heavy-duty sledge hammer is engineered for demanding industrial tasks including demolition, driving stakes, and breaking concrete. Featuring a high-quality 45# carbon steel head, it provides superior impact force and long-lasting durability. The ergonomic, long-reach fiberglass handle is designed to provide increased leverage while reducing vibration and user fatigue during extended operation.

Technical Specifications

Head Material	45# Carbon Steel
Handle Material	Fiberglass
Head Finish	Polished, Powder Coated

Applications

Primary Applications

- Demolition
- Driving stakes
- Breaking concrete
- Heavy hammering tasks
