

Heavy-Duty Spring Balancer (50-60kg)

This heavy-duty spring balancer is designed for suspending tools and equipment, providing weightless operation and reducing operator fatigue. It features an adjustable load capacity from 50kg to 60kg, ensuring compatibility with a range of tools.

Product Overview

Industrial-Grade Suspension Solutions

This heavy-duty spring balancer is engineered to provide weightless operation for suspended tools and equipment, significantly reducing operator fatigue in industrial settings. Designed for high-capacity use, it supports loads ranging from 50kg to 60kg, making it an essential tool for assembly lines and manufacturing workstations. Built for durability, the internal wire mechanism is securely housed to ensure long-term performance and reliability in demanding environments.

Technical Specifications

Load Capacity

50 kg

Minimum Capacity

60 kg

Maximum Capacity

Stroke Length

1.5 m

Minimum Stroke

2.5 m

Maximum Stroke

Model

HW-60

Origin

Made in China
