

Heavy Duty Steel Anchor Box

This heavy-duty anchor box is designed for secure anchoring and lifting applications. Constructed from robust steel, this box features reinforced mounting points and a durable finish for long-lasting performance in demanding environments.

Overview

Heavy Duty Steel Anchor Box

This heavy-duty anchor box is engineered for secure anchoring and lifting applications in demanding industrial and construction environments. Constructed from robust steel with reinforced mounting points, it provides a stable and reliable connection point for significant loads. The durable finish ensures long-lasting performance and resistance to wear during intensive use.

Technical Details

Construction Features

- Reinforced mounting points
- Durable exterior finish
- Heavy-duty steel construction
- Engineered for high-load stability

Model Number

BA-111-170T

Material

Robust Steel

Applications

Intended Use

Industrial Lifting, Construction Anchoring, Heavy Load Management, Stable Connection Points
