

Heavy-Duty Steel Shovel with D-Handle

This heavy-duty metal shovel features a durable steel blade and a comfortable D-shaped handle. It is ideal for digging, moving, and lifting various materials in construction, gardening, and landscaping applications.

Product Overview

Professional Heavy-Duty Shovel

This heavy-duty metal shovel is engineered for demanding tasks in construction, landscaping, and gardening. Featuring a high-durability steel blade and an ergonomic D-shaped handle, it provides superior control and leverage for digging and moving heavy materials. Its robust construction ensures reliable, long-lasting performance in professional work environments.

Technical Details

Blade Material	Steel
Handle Design	D-Handle

Application

Primary Applications	Construction, Gardening, Landscaping
----------------------	--------------------------------------

Key Features

Features

- Durable steel blade construction
- Ergonomic D-shaped handle for enhanced grip
- High-strength build for heavy-duty lifting
- Suitable for moving various materials
