

Heavy-Duty Surface-Mounted Door Closer

This heavy-duty, surface-mounted door closer is designed for high-traffic commercial applications. Adjustable closing and latching speeds provide precise control over door movement.

Overview

Heavy-Duty Commercial Door Closer

The 800 Series Door Closer is a robust, surface-mounted solution engineered for high-traffic commercial environments. Designed for reliability and precision, it features adjustable closing and latching speeds to ensure smooth operation and secure closure. Built from durable materials, this unit is versatile enough for both interior and exterior applications across aluminum, hollow metal, and wood door types.
