

Heavy-Duty Tire Dolly with Cover

This tire dolly is designed to easily move and store tires. It features durable construction with swivel casters for smooth maneuverability and a central recessed area for secure tire placement.

Product Overview

Heavy-Duty Storage Solution

This heavy-duty tire dolly provides an efficient, mobile solution for tire organization in professional automotive environments. Designed for durability and ease of use, it includes a protective cover that shields tires from environmental factors while ensuring your storage space remains neat. The system simplifies the process of moving heavy tire sets and allows for secure, long-term storage.
