Product Overview

Extreme Service Track Shoes for Mining

Designed specifically for the mining sector, these extreme service track shoes are engineered to withstand the harshest working conditions, including rocky and abrasive terrain. They feature a thicker, stronger grouser and plate design, which significantly increases bending modulus and overall wear resistance. Suitable for both OEM and aftermarket applications, these shoes are built to provide reliable, long-lasting performance for heavy-duty machinery.

Technical Specifications

Chain Pitch	240-317 mm
Quenching Treatment	HRC42-49
Core Hardness	HRC32 (measured from 13mm from top tooth)
Paint Film Thickness	13 um

Compatibility

Compatible Machinery

- Caterpillar D9
- Caterpillar D10
- Caterpillar D11
- Komatsu D155
- Komatsu D375
- Komatsu D475

Recommended Applications

Mining, Rocky Ground, Jumbo-sized Bulldozers, Extreme Service
