

Heavy-Duty Truck and Bus Tire

This is a heavy-duty tire designed for trucks and buses. It features a robust tread pattern for enhanced traction and durability.

RS601

Product Overview

RS601 Heavy-Duty Performance

The RS601 is a premium steer and trailer tire engineered specifically for demanding regional applications. Featuring a reinforced structure, it excels in extra loading scenarios while providing superior traction and stability. This tire is constructed to offer extended service life, making it a reliable solution for heavy-duty truck and bus fleets requiring durability across various road conditions.

Key Features

Core Advantages

Regional Application, Reinforced Structure, High Load Capacity, Steer & Trailer Optimized

Technical Specifications

Tread Depth Range

14 mm

Min Tread Depth

17.5 mm

Max Tread Depth

Sizing and Load Data

| Size | Ply Rating | Rim | Max Load Single (kg) |
|-----------|------------|-------|----------------------|
| 7.50R16LT | 14 | 6.00G | 1500 |
| 7.50R16LT | 16 | 6.00G | 1600 |
| 8.25R16LT | 16 | 6.50H | 1800 |
| 10.00R20 | 18 | 7.50 | 3250 |
| 11.00R20 | 18 | 8.00 | 3550 |
| 12.00R20 | 20 | 8.50 | 4000 |
