

Heavy-Duty Truck and Bus Tire

This heavy-duty tire is designed for trucks and buses. It features a robust tread pattern for enhanced traction and durability under demanding conditions.

Product Overview

RS601+ Heavy-Duty Performance

The RS601+ is a robust all-position tire specifically engineered for both on-highway and off-highway commercial applications. Featuring a reinforced structure, it is designed to handle extra loading requirements while providing superior traction. Its deep tread pattern and wide shoulders ensure exceptional grip, stability, and durability under demanding operational conditions.

Technical Specifications

Available Specifications

Size	Ply Rating	Load Index	Max Load Single (kg)	Tread Depth (mm)
7.50R16LT	14	122/118	1500	14
7.50R16LT	16	124/120	1600	14
8.25R16LT	16	128/124	1800	14.5
10.00R20	18	149/146	3250	16.5
11.00R20	18	152/149	3550	17
12.00R20	20	156/153	4000	17.5

Performance Features

Key Advantages

- Strong all-position tread pattern
- Reinforced structure for high-load capacity
- Suitable for mixed on and off-highway use
- Deep tread design for improved longevity and traction
