

# Heavy-Duty Truck Brake Lining

This brake lining is designed for heavy-duty truck brake systems. The material composition ensures optimal friction and wear resistance for various truck models.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Heavy-Duty Brake Linings

These heavy-duty brake linings are engineered for demanding commercial vehicle applications, including high-speed and high-temperature environments such as mountain roads. The material composition is entirely asbestos-free, ensuring compliance with modern environmental protection standards. Designed for reliability, these linings offer superior thermal recession resistance and recovery performance to maintain braking efficiency under constant stress.

## Performance Features

### Environmental Compliance

Asbestos-Free • Eco-Friendly

### Key Performance Metrics

High-Temperature Resistant, Thermal Recession Resistant, Excellent Recovery Performance

## Technical Specifications

### Brake Lining Compatibility

Model Identifier	WVA Number	Hole Count
BC/97/1	19094	10
BC/98/1	19032	10
BC/99/1	19825	10
BL/35/1	19251	10
BT/48/1	15282	16
CS/63/1	19744	12
BC/100/1	N/A	8
BC/106/1	19967	12

### Supported Vehicle Types

- Heavy-Duty Trucks
- Commercial Buses
- Trailers
