Product Overview

Heavy-Duty Air Brake Chamber

This heavy-duty air brake chamber is engineered for reliable and consistent braking performance in demanding commercial vehicle operating conditions. The unit features a robust, corrosion-resistant construction designed to withstand harsh environments. Available in both single and double air chamber configurations to suit various braking system requirements.

Technical Details

Available Types

- Single Air Chamber
- Double Air Chamber

Safety Warnings

DO NOT DISASSEMBLE

Construction Features

Black Painted Finish, Corrosion Resistant, Yellow Zinc-Plated Clamp Band, Protective Green Mesh Sleeve

Components

Included Hardware

- Clevis Rod
- Mounting Hardware
- Air Inlet Fitting
