Overview

Heavy-Duty Vehicle Air Suspension

This heavy-duty air suspension system is engineered to provide superior load distribution and enhanced ride comfort for commercial and industrial vehicles. Featuring a robust leaf spring design, the system ensures durability and stability under demanding operational conditions. It is specifically rated for an 11-ton capacity, making it a reliable solution for heavy-load logistics and transport applications.

Technical Specifications

Load Capacity

11 T

Rated Capacity

Suspension Design

Leaf Spring Air Suspension

Application

Heavy-Duty Vehicle, Industrial, Commercial Transport
