

Heavy-Duty Vinyl Seat Assembly for Industrial Vehicles

This heavy-duty seat assembly is designed for commercial service vehicles and machinery. It features a durable black vinyl covering, ergonomic contours for operator comfort, and a robust suspension system to minimize vibration and fatigue.

Overview

Industrial-Grade Operator Comfort

This heavy-duty seat assembly is engineered specifically for commercial service vehicles and industrial machinery. Featuring a durable black vinyl covering and ergonomic contours, it is designed to reduce operator fatigue during long shifts. The integrated robust suspension system effectively minimizes vibration, while the adjustable seat belt and sliding base ensure safety and customizable positioning for a variety of operators.

Key Features

Covering Material	Vinyl
Safety Features	Adjustable Seat Belt, Robust Suspension System
Adjustability	Sliding base for customizable positioning

Applications

Compatible Applications

- Tractors
- Forklifts
- Construction Equipment
- Industrial Machinery
