

Heavy-Duty Wheel Loader

This wheel loader is designed for construction and earthmoving applications. It utilizes a robust hydraulic system for efficient lifting and loading.

Overview

Built for High Performance

This heavy-duty wheel loader is engineered to deliver superior productivity in demanding construction and earthmoving environments. It features a robust hydraulic system for efficient material handling, supported by a high-capacity bucket designed for increased operational throughput. Designed with the user in mind, the unit offers a comfortable operator cabin with ergonomic controls and excellent visibility for safe site operations.

Key Features

Operational Strengths

Heavy-Duty Construction, Efficient Hydraulics, High-Capacity Loading, Ergonomic Cabin

Technical Specifications

Power Source

Diesel Engine

Model ID

ZLM30E-5 / ZL30E-5
