

Heavy-Duty Woodworking Clamp

This wood clamp is designed for woodworking and DIY applications. Its durable steel frame provides even clamping pressure, while the adjustable screw mechanism allows for secure material holding.

Product Overview

Professional Heavy-Duty Clamping Solution

This heavy-duty woodworking clamp is engineered for reliability and precision in demanding workshop environments. Constructed from high-strength carbon steel, it provides robust support for gluing, assembly, and securing workpieces. The integrated adjustable screw mechanism ensures consistent pressure, while the ergonomic handle minimizes user fatigue during repetitive tasks.

Technical Specifications

Primary Applications

- Gluing components
- Workshop assembly
- Material securing

Material Composition

Carbon Steel

Core Features

Heavy-Duty, Adjustable Screw, Ergonomic Handle, Precision Clamping
