Product Overview

Industrial Heavy Load Transport Solutions

These professional-grade transport trolleys are designed for the efficient and safe movement of heavy machinery and large-scale industrial equipment. Featuring robust steel construction and specialized roller configurations, they offer reliable stability for loads ranging from 3 to over 600 tons. Each unit is equipped with a high-grip rubber surface to ensure load security during transit.

Technical Specifications

Load Capacity Range

3 tons Minimum Capacity	600 tons Maximum Capacity
-----------------------------------	-------------------------------------

Material Benefits

- Non-marking Nylon and Polyurethane wheels for floor protection
- High-grip rubber top surface for load stability
- Heavy-duty steel frame construction

Roller Material Options	Steel, Nylon, Polyurethane
Customization	Yes
