

Height Adjustable Rotating TV Stand with Wheels

This TV stand features four locking wheels, providing effortless mobility across various surfaces. It is ideal for displaying TVs in homes, offices, meeting rooms, and exhibition spaces.

Product Overview

Professional Grade Mobile TV Stand

This height-adjustable rotating TV stand is engineered for durability and versatility in demanding environments such as hospitals, schools, and corporate offices. Constructed with a high-grade steel mount and an aluminum-alloy pole, it provides a stable and secure display solution. The unit features 90-degree rotation capabilities and smooth-rolling, locking wheels, making it an ideal choice for interactive touch screens and dynamic presentation needs.
