

Hemispherical Lens Wall Light

This wall light fixture features a transparent, hemispherical lens covering an internal light source. It mounts to a wall via a bronze-colored arm and circular base.

Product Overview

Hemispherical Lens Wall Light

This hemispherical lens wall light combines decorative elegance with functional ambient illumination. Featuring a distinct lens design and a robust bronze-colored arm, it is built to provide reliable lighting for both indoor and outdoor spaces. The fixture includes an integrated top panel, making it an efficient choice for modern lighting installations.
