

HEPA Filter Vacuum Cleaner with Swivel Hose

This vacuum cleaner is designed for efficient cleaning with speed control and airflow adjustment. It features an automatic cord rewinder, 360° hose swivel, HEPA filter, and a complete set of accessories.

Product Overview

Professional Cleaning Performance

This versatile vacuum cleaner is engineered for high-efficiency cleaning tasks in professional environments. It features intuitive speed control on the body and precise airflow regulation on the handle to maintain optimal suction power. With a 360° swiveling hose and automatic cord rewinder, it ensures superior maneuverability and ease of operation for the end user.
