

Hex Head Bolt

This hex head bolt conforms to ISO4017 standards. It is suitable for use in machinery, construction, and automotive applications, providing reliable performance.

Product Overview

High-Performance Hex Head Bolts

These versatile hex head bolts are engineered to meet rigorous international standards, including DIN, ISO, ANSI, and ASTM specifications. Designed for reliability in demanding environments, they are available in multiple material grades and finishes to suit specific industrial needs. Whether for construction, automotive, or general machinery assembly, these fasteners provide secure and durable connections.

Technical Standards

Specific Norms

- DIN931/33
- DIN960/61
- DIN934
- DIN125/27
- DIN6914/15/16
- DIN7990
- ISO4014/17
- ASTM A325
- ASTM A490
- ASTM A563
- ASTM F436
- ASTM A193 B7
- ASTM A194 2H

Supported Standards

DIN, ISO, ANSI, ASME, BS, AS, JIS

Material & Finish

Material

Carbon Steel • Alloy Steel

Available Finishes

- Plain
- Black Oxidized
- Zinc Plated (White/Yellow/Blue/Color)
- Hot Dip Galvanized
- Dacromet

Available Grades

8.8, 10.9, 12.9, GR5, GR8

Logistics & Supply

Monthly Supply Ability

800 Tons

Monthly Capacity

Delivery Lead Time

7-30 days

Packaging Details

25kg per carton, 36 cartons per pallet (customizable upon demand)

Applications

Primary Applications

- Building Construction
- Instrumentation
- Automotive
- Furniture Assembly
