

Hex Head ISO Standard Bolt

These high-strength bolts conform to ISO standards. They feature hexagonal heads and fully threaded shanks, plus a black oxide finish for corrosion resistance.

Product Overview

Professional Grade Hex Head Bolts

These high-quality hex head bolts are engineered to meet diverse international standards, including DIN, ISO, ANSI, and ASTM specifications. Designed for versatility, they are suitable for demanding applications across construction, automotive, and industrial machinery sectors. Available in various high-strength grades and finishes, these fasteners provide reliable performance for critical structural and assembly projects.

Technical Standards

Specific Norms Compliance

- DIN931/33
- DIN960/61
- DIN934
- DIN125/27
- DIN6914/15/16
- DIN7990
- ISO4014/17
- ASTM A325
- ASTM A490
- ASTM A563
- ASTM F436
- ASTM A193 B7
- ASTM A194 2H

Supported Standards

DIN, ISO, ANSI, ASME, BS, AS, JIS

Material & Finish

Material

Carbon Steel • Alloy Steel

Finish Options

Plain, Black Oxidized, Zinc Plated, Hot Dip Galvanized, Dacromet

Available Grades

8.8, 10.9, 12.9, Gr 5, Gr 8

Logistics & Supply

Monthly Supply Ability

800 tons

Monthly Capacity

Lead Time

7-30 days

Packaging Details

25kg per carton, 36 cartons per pallet (customizable upon request)

Applications

Primary Applications

- Building Construction
- Industrial Instrumentation
- Automotive Assembly
- Furniture Manufacturing
