Overview

Professional High-Visibility Protection

This thermal jacket is engineered for professionals working in hazardous, low-light, or foul weather conditions. Combining high-visibility safety standards with durable, waterproof construction, it ensures both protection and comfort. The quilted lining and heavy-duty design make it an ideal choice for construction sites, traffic management, and demanding industrial environments.

Safety Standards

Certifications

EN ISO20471:2013 Class 3, EN343 Class 3.1
