Product Overview

Premium Rear Lighting Solution

This tail light assembly is precision-engineered specifically for the 2019 HIACE model, ensuring a perfect fit and seamless integration. Designed to meet strict automotive safety standards, it combines durability with enhanced visibility for braking, turn signaling, and reversing. The assembly features a robust construction with red and clear lenses, providing reliable performance in various environmental conditions.

Compatibility & Fitment

Compatible Vehicle	HIACE 2019
--------------------	------------

Technical Features

Lens Configuration

Red Lens • Clear Lens

Integrated Functions	Brake Light, Turn Signal, Reverse Light
----------------------	---

Installation & Build

Key Benefits

- Enhanced visibility for safety
- Durable material construction
- Resistance to environmental factors
- Automotive standard compliance

Mounting Hardware	Black mounting bracket included
-------------------	---------------------------------
