Overview

High-Efficiency Industrial Lighting

This high-efficiency, explosion-proof UFO high bay light is engineered for demanding industrial environments. Featuring robust die-casting aluminum housing, it ensures superior heat dissipation and long-term durability. With versatile voltage options and high luminous efficacy, it provides a reliable lighting solution for warehouses, factories, and large commercial spaces.

Performance & Technical

Luminous Efficacy

150 lm/w
Max Efficiency

Voltage Options

- 100-277V
- 347/480V

Aging Test Duration

12 hours

Construction & Design

Housing Material

Die-casting Aluminum

Compliance & Warranty

Certifications

DLC • ETL • SAA • CE • RoHS • TUV • GS • CB

Warranty Period

5 years

Applications

Suitable Environments

Factory, Warehouse, Fashion Store, Department Store, Office, Home Furnishing
