

High Carbon Steel Auger Drill Bit

This auger bit is constructed from high carbon steel for strength and durability. It is designed for drilling holes in wood.

Product Overview

High-Performance Auger Drill Bits

These high carbon steel auger bits are engineered for precision drilling in wood applications. Featuring a screw point for self-centering and deep flutes for efficient chip removal, they ensure clean and consistent hole formation. Their robust construction provides long-lasting durability, making them an ideal choice for professional woodworking and construction projects.

Technical Specifications

Material	High Carbon Steel
Primary Application	Woodworking, Drilling, Construction

Sizing and Availability

Available Single Sizes

- 5mm
- 7mm
- 10mm
- 62mm

Available Sets

Set Range

10mm - 25mm

8mm - 20mm
