

High Carbon Steel Hole Saw Set

This hole saw kit includes multiple popular sizes. It is suitable for creating holes in wood or plastics.

Product Overview

Professional Grade Hole Saw Set

This comprehensive 10-piece hole saw kit is designed for efficient cutting in wood and plastic materials. Constructed from high-grade painted carbon steel, these blades feature induction-hardened teeth to ensure extended durability and a longer drilling life. The set includes a versatile range of popular hole saw sizes and essential accessories for immediate use.
