## Product Overview

### High-Efficiency LED Street Lighting Solution

This high-performance LED street light is engineered for optimal illumination across main roads, secondary streets, parks, and city squares. With a superior luminous efficacy of up to 150lm/W and a lens transmittance exceeding 93%, it ensures maximum light output and energy efficiency. Designed for durability in outdoor environments, this lighting solution offers reliable performance and a 5-year warranty for long-term peace of mind.

## Technical Specifications

Luminous Efficacy	150 lm/W
Ingress Protection	IP66
Warranty	5 Years
Lens Transmittance	93 %

## Power Options

### Wattage Range

- 40
- 60
- 80
- 100
- 120
- 150
- 200
- 240

## Certifications

Compliance

CE, ENEC

## Applications

### Recommended Use Cases

Main Roads • Secondary Roads • Parks • City Squares • Community Areas • Highways
