

# High-Efficiency Single-Door Refrigerator

This refrigerator utilizes a high-efficiency compressor for rapid cooling and strong freezing power. Its design includes adjustable shelves, a portable egg tray, and an automatic door closing mechanism.

## Product Overview

### High-Efficiency Single-Door Cooling Solution

This single-door refrigerator features a high-efficiency compressor designed for rapid cooling and superior freezing performance. Engineered with R600a refrigerant, it offers an environmentally conscious solution that protects the ozone layer while maintaining optimal freshness. The unit achieves national level one energy efficiency, ensuring minimal power consumption and significant long-term cost savings.

## Technical Performance

### Energy Efficiency Level

National Level 1

### Cooling Power

**1 Level**

Energy Efficiency

### Refrigerant

R600a (Fluorine-free)

## Design & Utility

### Available Models

- BCD-179
- BCD-189
- BCD-199
- BCD-219

### Key Features

Automatic Door Closing, Adjustable Shelves, Portable Egg Tray, Wide Voltage Range, Brushed Finish
