

High-Gain Outdoor Digital TV Antenna

This high-gain outdoor TV antenna is designed for optimal reception of digital terrestrial television signals. Featuring a multi-element Yagi-Uda design, it provides enhanced signal strength and clarity, even in areas with weak signal coverage.

Product Overview

Professional High-Gain Digital TV Reception

This high-gain outdoor antenna utilizes a multi-element Yagi-Uda design to deliver exceptional signal clarity and strength. Engineered for reliability, it is constructed from weather-resistant materials to ensure long-term performance in diverse outdoor environments. The unit is optimized for digital terrestrial television, providing robust support for both VHF and UHF frequency bands.

Technical Specifications

Build Quality

Weather-resistant • Durable construction

Supported Frequencies	VHF, UHF
Antenna Architecture	Multi-element Yagi-Uda

Installation & Application

Application Scope

- Residential TV reception
- Commercial digital broadcast systems

Installation	Yes
