

# High-Intensity Handheld Torch with AC Adapter

This high-intensity torch is designed for specialized applications. It features a focused reflector for long-range illumination and comes with an external AC adapter for charging.

## Product Overview

### Professional Illumination Solution

This high-intensity handheld torch is engineered for specialized industrial and professional applications requiring reliable, long-range illumination. The unit features a robust, durable housing designed for demanding environments and includes a dedicated AC adapter for convenient recharging of the integrated battery system. Its focused reflector design ensures superior light projection, making it an essential tool for field operations.

## Technical Specifications

### Design Features

- Robust green protective housing
- High-intensity focused reflector
- Self-contained battery unit

Power Source	Integrated rechargeable battery pack with external AC adapter
Best For	Industrial Use, Field Operations, Professional Lighting
