

High-Intensity LED Floodlight

This high-intensity LED floodlight is designed for outdoor illumination. It features a robust housing for weather resistance and a high-efficiency LED array for bright and energy-saving lighting.

Product Overview

High-Intensity Outdoor Illumination

This high-intensity LED floodlight is engineered for demanding outdoor environments, offering superior brightness and energy efficiency. Constructed with a robust, weather-resistant housing, it provides reliable performance for long-term use. Ideal for security lighting, landscape enhancement, and general area illumination, this unit is a versatile solution for professional lighting requirements.

Technical Specifications

Durability Features

Weather Resistant • Robust Housing

Light Source	High-efficiency LED array
Application Areas	Security Lighting, Landscape Lighting, General Area Illumination
