

High-Intensity LED Metal Flashlight

This high-intensity LED flashlight is designed for versatile illumination. Constructed with a durable metal casing, it features multiple LED bulbs for enhanced brightness and a focused beam.

Product Overview

Professional Illumination Solution

This high-intensity LED metal flashlight is engineered to provide reliable and focused illumination for demanding professional environments. Built with a robust metal casing, the unit is designed to withstand rigorous daily use while delivering superior brightness through its multi-bulb LED array. Its intuitive push-button design ensures rapid operation, making it an essential tool for maintenance, security, and industrial inspections.

Technical Specifications

Body Material	Metal
Light Source	Multi-bulb LED
Switch Type	Push-button

Features

Key Features	High-Intensity, Durable Metal Casing, Focused Beam, Easy Operation
