Product Overview

Professional High-Intensity Lighting

This high-intensity LED work light is engineered for demanding industrial environments, including construction sites and automotive repair facilities. It features advanced COB LED technology and robust, impact-resistant housing designed for durability and efficient heat dissipation. With convenient app-based control and adjustable brightness settings, this portable light provides reliable, uniform illumination exactly where you need it.

Performance Metrics

Luminous Flux

3500 lm

Max Brightness

Adjustable Brightness Range

- 500
- 1500
- 2500
- 3500

Power & Battery

Battery Capacity	4000 mAh
Operating Time	2 Hrs
Battery Chemistry	Li-ion

Features

Lighting Technology

COB LED

Design Features

- Impact-resistant housing
- Integrated cooling fins
- Battery level indicator

Connectivity

Bluetooth, App Control
